

## THE MAGIC LANTERN WITHIN

Here are two more slides that feature a magic lantern or peepshow as part of the image. The first one (on the left) is from Gwen Sebus' collection and appears to be homemade for a special occasion, possibly a wedding Gwen suggests. The second (on the right) is from Lester Smith's collection and features a peepshow with a pig trumpeter and dog watching the show. This is from a long slide featuring four other characters (image size 52 mm) and was produced by F. Pastorelli & Co., 208 Piccadilly, London. The company traded at this address between 1859 and 1875.
