

MAGIC LANTERNS, SHADOWS AND ILLUSIONS

Sergi Buka will be performing a magic lantern show along with shadows and illusions in Girona as part of the *Temporada Alta Festival* – the autumn festival of theatre, dance and music.

His show is on 26 November at 6.00pm in the Cultural Centre La Mercè de Girona, very close to the Cinema Museum of Girona, home to the fantascop featured in *TML 12* (September 2017).

This is the description of his show: "To commemorate the 25th anniversary of the Cinema Museum of Girona, the Illusionist Sergi Buka offers us *The Image Hunter* (*El Caçador d'imatges*), a journey in search of an image that captivated him, a visual experience that begins in the darkness of the caves and that will trap us with a magic lantern show until we reach a world – ours – already dominated by the image, where virtual reality invades our physical space."
