

THE MAGIC LANTERN WITHIN

Bernd Scholze has sent this unusual example. He says: "Here is a 'pagoda lantern' on a slide by Ernst Plank, which was probably supplied together with the lantern of the same name and dates from around 1880. This was only recently discovered at a meeting of *Laterna magica* enthusiasts at my home last Christmas."

Please keep on sending your examples of magic lanterns within slides to editor@magiclantern.org.uk.
